দুরন্ত বার্তা, আসানসোল, ১৫ নভেম্বর ঃ করোনার কারণে খুব সতর্কতা অবলম্বন করে স্বাস্থ্যবিধি মেনে আসানসোল শিল্পাঞ্চলজুড়ে কালীপুজোর আয়োজন করা হয়েছে। পারিবারিক পুজো থেকে মন্দিরে মন্দিরে ও বারোয়ারি সব পুজোতেই পুরোনো রীতি ও পরম্পরা বজায় রেখে পুজো হচ্ছে। শনিবার বিকেলের পরে অমবস্যা পড়ায় সন্ধ্যা নামতেই মন্দিরে ও মণ্ডপে পুজো শুরু হয়ে যায়। ভোররাত পর্যন্ত চলে নিষ্ঠাসহকারে আরাধনা। নিয়ন্ত্রণের মধ্যেই কালীর আরাধনায় মেতে উঠেছেন শিল্পাঞ্চলবাসীরা। আসানসোল রানিগঞ্জ কয়লা খনি এলাকায় রয়েছে কালীর নানা কথা। এই পশ্চিম বর্ধমান জেলাতেই কালী কোথাও কল্যানেশ্বরী, কোথাও ঘাঘরবুড়ি চণ্ডীরূপে পূজিত হন। কয়েক শতাব্দী পুরোনো আসানসোলের কল্যানেশ্বরী মন্দিরে প্রতিবছরই কালীপুজোর রাতে নৈবেদ্য আসে কাশীপুর রাজবাড়ি থেকে। পুজোতে রাজার নামেই প্রথম সংকল্প করা হয়। দেবীর শাঁখা আসে দামোদরের শাঁখারি পরিবার থেকে। কথিত আছে, এই কল্যানেশ্বরী মন্দিরে প্রথম সিদ্ধিলাভ করেছিলেন কাপালিক দেবিদাস চট্টোপাধ্যায়। পাহাড় কেটে মন্দির তৈরি হয়েছে এখানে। কল্যানেশ্বরী মন্দিরে কোনও মূর্তি পুজো হয় না। দেশের বিভিন্ন রাজ্য থেকে এই মন্দিরে পুজো দিতে আসেন মানুষেরা। মন্দিরের প্রধান সেবাইত দিলীপ দেওঘড়িয়া বলেন, 'বছরের অন্য সময় সন্ধ্যা ৬টায় বন্ধ হয়ে যায় মন্দিরের দরজা। এই এলাকায় একটা সময় বাঘের ভয় থাকায় দিনের বেলায় সন্ধ্যা আরতি করে পুরোহিত মন্দিরের দরজা বন্ধ করে চলে যেতেন। সেই পরম্পরা ও রীতি আজও চলে আসছে। নথি ঘেঁটে জানা যায়, কাপালিক দেবদাস চট্টোপাধ্যায় মা কালীর সাধনা করতে এখানে এসেছিলেন। সেই সময় এলাকা ছিল ঘন জঙ্গলে ঘেরা। তখন থেকেই দেবী ওই জায়গায় পুজো পেয়ে আসছেন। এখানে দেবী চালনাদহের ঘাটে পথচলতি এক শাঁখারিকে ডেকে নিজে দর্শন দিয়েছিলেন। পরে দেবী তাঁর কাছ থেকে শাঁখাও পরেছিলেন। সেই শাঁখারি কাপালিক দেবিদাস চট্টোপাধ্যায়কে নিজের বাবা বলে পরিচয় দিয়েছিলেন। অতীতে বহু অলৌকিক ঘটনা ঘটেছে এই কল্যাণেশ্বরী মন্দিরকে ঘিরে। কালীপুজোর দিনে এখানে সারারাত পুজো হয়। ছাগ বলি দেওয়ার রীতি আছে এখানে। এই কল্যানেশ্বেরী মন্দিরের অদূরেই রয়েছে মাইথন। এই আসানসোলেই আছেন মা ঘাঘরবুড়ি। আসানসোলের কালিপাহাড়ি মোড়ের অদূরে ২ নম্বর জাতীয় সড়ক লাগোয়া হল মা ঘাঘরবুড়ি মন্দির। জানা যায়, আসানসোলের মা ঘাঘরবুড়ি হলেন সাত ভাই-বোন। ছয় বোন ও এক ভাইয়ের মধ্যে সবচেয়ে বড় বোন হলেন আসানসোলের মা ঘাঘরবুড়ি। বাকি ৬ বোন হলেন ভূতাবুড়ি, নুনিবুড়ি, ঘোষবুড়ি, ধেনুয়াবুড়ি, কেন্দুয়াবুড়ি ও পিয়ালশালবুড়ি। আর শান্তিনাথ হলেন এই সাত বোনের একমাত্র ভাই। এখানে দেবীর পুজোয় নির্দিষ্ট কোনও মন্ত্র নেই। শুধুমাত্র ভক্তি ও বাকি সাত ভাই-বোনের নাম উচ্চারণ করেই পুরোহিত দেবীর পুজো করেন। অনেক আগে কালিপাহাড়ি এলাকায় নুনিয়া নদীর ধারে তিনটি শিলাকে দেবী চণ্ডী মনে করে মানুষেরা পুজো শুরু করেছিলেন। তা দেখে গ্রামের জায়গিরদাররা এলাকায় একটি মন্দির তৈরির সিদ্ধান্ত নেন। তারপর এখানে মন্দির হয়। অনেকের মতে, দেবীকে ঘাঘরা পড়ানোর জন্য মা ঘাঘরবুড়ি নাম হয়েছে। এখানে পয়লা মাঘ ও কালীপুজোর রাতে বড় করে পুজো হয়। এছাড়াও প্রতি শনিবার ও মঙ্গলবার এই মন্দিরে ভক্তদের ভিড় হয় চোখে পড়ার মতো। এখানে পুজোর সময় আরতিতে মোমের ব্যবহার প্রচলিত আছে।

রাতে বোমাবাজি

দুরন্ত বার্তা, মুর্শিদাবাদ, ১৫ নভেম্বর ঃ ফের মুর্শিদাবাদের ডোমকলে প্রকাশ্যে তৃণমূলের গোষ্ঠীকোন্দল। এবার পঞ্চায়েত সদস্যের বাড়িতে বোমাবাজির অভিযোগ উঠল প্রধানের স্বামীর বিরুদ্ধে। অভিযোগ ভিত্তিহীন বলেই দাবি পঞ্চায়েত প্রধানের। রবিবার সকালে ঘটনাস্থল পরিদর্শন করেন পুলিশ আধিকারিকরা। জানা গিয়েছে, শনিবার অর্থাৎ কালীপুজোর রাতে আমকাই তাসিকুল নামে ওই পঞ্চায়েত সদস্যের বাড়ি লক্ষ্য করে বোমাবাজি শুরু করে একদল। স্বাভাবিকভাবেই হতচকিত হয়ে পড়েন পরিবারের সদস্যরা। প্রাণ বাঁচাতে তড়িঘড়ি লুকিয়ে পড়েন তাসিকুল ও পরিবারের বাকিরা। ঘটনাকে কেন্দ্র করে উত্তর হয়ে ওঠে এলাকা। রবিবার সকালে ঘটনাস্থল পরিদর্শনে যান পুলিশ আধিকারিকরা। সেখান থেকে উদ্ধার করে বেশ কয়েকটি সকেট। তবে সেগুলিতে কোনও রকম বোমার মশলা ছিল না বলেই দাবি পুলিশের। কিন্তু কেন এই হামলা? পঞ্চায়েত সদস্য তাসিকুল ইসলামের কথায়, সম্প্রতি পঞ্চায়েতের বিভিন্ন প্রকল্পের দুর্নীতি ও কাজের খতিয়ান নিয়ে বিডিও অফিসে তথ্য জানার আইনে আরটিআই করেছিলাম। তারপর থেকেই প্রধান আঙ্গুরা বিবির স্বামী আসাদুল ইসলাম নানাভাবে আমাকে হুমকি দিচ্ছিল। অভিযোগ তুলে নিতে বলছিল। আমি তাতে রাজি না হওয়ায় শনিবার রাতে তার মদতপুষ্ট দুস্কৃতিদেরাই আমার বাড়িতে বোমাবাজি করেছে। যদিও ওই অভিযোগ অস্বীকার করেন প্রধানের স্বামী আসাদুল ইসলাম। তাঁর কথায়, নানা কারণে ওই সদস্য পঞ্চায়েতে কোনঠাসা হয়ে পড়েছে। কোনও কাজ দিলে কাজ করে না। উনি নিজেই সুতলি বোমা ফাটিয়ে এই অভিযোগ করছে। সঠিক তদন্ত হলেই প্রমান হরে যাবে। পঞ্চায়েত প্রধানের সুরে সুর মিলিয়ে তাসিকুল ইসলামও দাবি জানিয়েছেন পর্যাপ্ত তদন্তের। তাঁর কথায়, সঠিক তদন্ত হলেই বোঝা যাবে পঞ্চায়েতে কীভাবে পুকুর চুরি ঘটেছে। আর ওই ঘটনা নিয়ে যে প্রতিবাদ করছে তাঁকেই নানান কৌশলে পঞ্চায়েতের কাজ থেকে বঞ্চিত করা হচ্ছে। শুধু তাই নয় ওই সদস্যকে প্রাণে মারারও চেষ্টা করা হচ্ছে! যেমনটা আমাকে করা হচ্ছে।

বাজির আগুনে পুড়ে মৃত শিশু

দুরন্ত বার্তা, মালদা, ১৫ নভেম্বর ঃ বাজি ফাটাতে গিয়ে মৃত্যু হল ৭ বছরের শিশুর। মালদার কালিয়াচক থানার কদমতলী গ্রাম পঞ্চায়েতের জালালপুর গ্রামের ঘটনা। মৃতের নাম জয়ন্তী রবিদাস (৭)। সে কদমতলী প্রাথমিক বিদ্যালয়ের প্রথম শ্রেণির ছাত্রী। রবিবার রাতে পরিবারের অন্যান্যদের সঙ্গে জয়ন্তী বাজি ফাটাচ্ছিল। হঠাৎই তাঁর জামায় আগুন লেগে যায়। পরিবারের লোকেরা কোনক্রমে আগুন নিভিয়ে জয়ন্তীকে মালদা মেডিকেল কলেজ ও হাসপাতালে নিয়ে যান। সেখানে চিকিৎসা চলাকালীন মৃত্যু হয় তাঁর। কালিয়াচক থানার পুলিশ দেহটি ময়নাতদন্তে পাঠিয়ে গোটা ঘটনার তদন্ত শুরু করেছে। এই ঘটনায় এলাকায় শোকের ছায়া নেমে এসেছে। কলকাতা হাইকোর্টের নির্দেশে এবার কালীপুজোয় বাজি বিক্রি এবং ফাটানো সম্পূর্ণ নিষিদ্ধ। তারপরেও কীভাবে খোলা বাজারে বাজি এল তা নিয়ে প্রশ্ন উঠেছে। পাশাপাশি বাজি ফাটানোর সময় প্রয়োজনীয় সতর্কতা নেওয়া হয়েছে কিনা তা নিয়েও বিতর্ক দেখা দিয়েছে। কালিয়াচক থানার পুলিশ মৃতের পরিবারের সদস্যদের জিজ্ঞাসাবাদ করছে।

আলুয়াবাড়ি রোড স্টেশনের নাম বদলের দাবী

দুরন্ত বার্তা, ইসলামপুর, ১৫ নভেম্বর ঃ দীর্ঘ কয়েক দশক ধরে ইসলামপুরের আলুয়াবাড়ি রোড স্টেশনের নাম বদলে ইসলামপুর বা ইসলামপুর টাউন করার দাবি পূরণ হয়নি আদৌ। ফলে এই বিষয়টিকে ঘিরে ক্ষোভে ফুঁসছেন এলাকার বাসিন্দারা। শুধু যে দাবি তাও নয় বরং সেই দাবি পূরণের জন্য বিভিন্ন রাজনৈতিক দল ও সামাজিক সংগঠনের তরফে অবস্থান, বিক্ষোভ, অবরোধ কিংবা রেলওয়ে বোর্ডের দ্বারস্থ হলেও সমস্যা সেই তিমিরেই। এই বঞ্চনার বিষয়ে জন মানসে তৈরি হয়েছে এক বিরূপ প্রতিক্রিয়া। অনেক ক্ষেত্রেই বহিরাগত যাত্রীদের শুধু এই নামের জন্যই বিভ্রান্তির শিকার হতে হচ্ছে। আবার অনেকেই ইসলামপুর নামবেন বলে স্টেশন খুঁজে পাচ্ছেন না। আর তাই সাধারণ মানুষ চেয়েছিলেন তাদের এই দাবি পূরণ হোক। কিন্তু এ নিয়ে একাধিক প্রতিশ্রুতি পাওয়া গেলেও অন্তত এ বিষয়ে মানুষ যেন বঞ্চনার শিকার। এ নিয়ে মুখ খুলেছেন একাধিক জন প্রতিনিধি ও রাজনৈতিক নেতৃত্ব। রাজ্যের শ্রমদপ্তরের প্রতিমন্ত্রী গোলাম রাব্বানী জানান, তিনি এ বিষয়ে একাধিকবার আন্দোলন করেছেন এবং এ নিয়ে তারা রাস্তায় নামতেও রাজি আছেন। যেহেতু বিষয়টি রাজ্য সরকারের এক্তিয়ারের বাইরে তাই এ বিষয়ে কেন্দ্রীয় মন্ত্রী দেবশ্রী চৌধুরীকে একাধিকবার জানিয়েছেন এলাকাবাসীরা। কিন্তু আদতে সমস্যার সমাধান হয়নি, কেন্দ্রীয় বঞ্চনার শিকার এলাকাবাসী। যদিও কেন্দ্রীয় মন্ত্রী তথা রায়গঞ্জের সাংসদ দেবশ্রী চৌধুরী বলেন, এ বিষয়ে এখনও পর্যন্ত তার কিছু জানা নেই। তবে লিখিতভাবে কিছু পেলে তিনি বিষয়টি ঊর্ধ্বতন কর্তৃপক্ষের নজরে আনবেন। অন্যদিকে সিপিএমের ইসলামপুর এরিয়া কমিটি সম্পাদক বিকাশ দাস জানান, এ বিষয়ে এর আগে দলের পক্ষ থেকে লাগাতার দুদিন ধরে অবস্থান-বিক্ষোভ দেখিয়েছিলেন তারা। পরবর্তীতে এলাকার প্রাক্তন সাংসদ মহম্মদ সেলিম যোগাযোগ করেছিলেন রেল মন্ত্রকের সাথে। তাতেও লাভ হয়নি। বর্তমানে কেন্দ্রীয় সরকারের মন্ত্রী রয়েছেন জেলাতে। তিনি চাইলে তা করতে পারেন বলে মনে করছেন তিনি।

কড়কনাথ প্রতিপালন করে জীবিকার নতুন দিশা

দুরন্ত বার্তা, আসানসোল, ১৫ নভেম্বর ঃ রাজ্য সরকারের সহযোগিতায় কড়কনাথ মুরগি চাষ করে দিন বদলেছে পশ্চিম বর্ধমান জেলার সালানপুর ব্লকের আল্লাডি গ্রাম পঞ্চায়েতের আদিবাসী যুবকদের। রাজ্য সরকারের তরফে গ্রামের মানুষদের কড়কনাথ মুরগি চাষ করার উৎসাহ দেওয়া হয়। সেই মতো সালানকপুর ব্লকের কৃষি দপ্তরের সহযোগিতায় আল্লাডি গ্রাম পঞ্চায়েতের অন্তর্গত আদিবাসী অধ্যুষিত গ্রামের কয়েকজন যুবক এই মুরগি চাষ শুরু করেন। কৃষি দপ্তর থেকে ৩০০ টি মুরগির ছানা দেওয়া হয় স্থানীয় যুবকদের। প্রথমে ফার্ম করে চাষ করলেও পরবর্তীকালে একটি বড় জায়গা ঘিরে মুক্ত আকাশের নিচে বর্তমানে মুরগিগুলি পালন করছেন। রাতে মুরগিগুলি থাকার জন্য একটি চাটাইয়ের ঘর বানিয়েছেন ওই যুবকরা। তাঁদের কথায় এই মুরগিগুলি খুব পোষ মানে। খোলা জায়গায় ঘুরলেও খাবার সময় নির্দিষ্ট জায়গায় সময়মতো চলে আসে তারা। সারাদিন ঘুরে সন্ধ্যায় নিজেদের ঘরে ফিরে আসে কড়কনাথ মুরগিগুলি। কড়কনাথ মুরগি চাষে দিন বদলেছে সালানপুরের আদিবাসী যুবকদেরএই কড়কনাথ মুরগির মাংস স্বাদে ও গন্ধে অতুলনীয়। মূলত মধ্যপ্রদেশে এই মুরগির চাষ হত। সেখানে বেশ জনপ্রিয় এই মুরগি কুচকুচে কালো। কোনও কোনও মুরগির গায়ে সোনালি রেখাও আছে। এই মুরগির মাংস, ঝুঁটিও কালো। এমনকী এই মুরগির ডিমের রং সাধারণ মুরগির থেকে আলাদা। তবে এই মুরগির মাংস ও ডিমে রয়েছে প্রচুর গুণাগুণ। বিশেষজ্ঞদের মতে, এই মুরগির মাংসে রয়েছে প্রচুর অ্যান্টি-অক্সিডেন্ট। যা নাকি ক্যানসার আটকাতে সক্ষম। যদিও এই বিষয়ে এখনও গবেষণা চলছে। এই মুরগির মাংসে কোলেস্টরল অনেক কম। যা হার্টের রোগী ও ডায়াবেটিসের রোগীদের জন্য খুব উপকারী। সাধারণ পোলট্রি মুরগি বা দেশি মুরগির থেকে কড়কনাথ মুরগির স্বাদ একেবারেই অন্য। বর্তমানে এই মুরগি খেতে মানুষ খুব পছন্দ করে। এছাড়া বাজারে এই মুরগির ডিমের চাহিদা আছে যথেষ্ট। সালানপুরের সহ কৃষি অধিকর্তা রাজর্ষি বন্দ্যোপাধ্যায় জানান, 'এই মুরগি যত দৌড়াদৌড়ি করতে পারবে তত তাড়াতাড়ি বেড়ে উঠবে। যদিও খুব বেশি খোলামেলা জায়গায় এই মুরগি পালন করা যায় না। কারণ রানিক্ষেত রোগ হচ্ছে এই মুরগির ক্ষেত্রে বিপজ্জনক। এই মুরগিতে মড়ক লাগতে পারে। কিন্তু যেহেতু গ্রামের ক্ষেত্রে ততটা অসুবিধা নেই তাই এখানে কার্যত খোলামেলা ভাবেই মুরগি পালন হচ্ছে। এই মুরগির চাষে লাভ অনেক বেশি। প্রায় ৭০০ থেকে ৮০০ টাকা কিলো দরে এই মুরগি বিক্রি হয়। ডিমের দাম সাধারণের থেকে প্রায় তিন চার গুণ বেশি। লকডাউনের সময় যখন সমস্ত ব্যবসায় মন্দা দেখা গেছে, তখনও কড়কনাথ মুরগি চাষ করে লাভের মুখ দেখেছেন তাঁরা। কয়েকমাসে প্রায় ৪০ হাজার টাকা লাভ করেছেন তাঁরা। সামনে পিকনিকের মরশুম। মাইথন, সিধাবারি সহ মালানপুরের বিভিন্ন এলাকায় প্রচুর পর্যটক আসে। সেই সময়ে কড়কনাথ মুরগির প্রচুর পরিমাণে বিক্রির সম্ভাবনা দেখছেন তাঁরা।

প্রণামী বাক্স চুরি

দুরন্ত বার্তা, জলপাইগুড়ি, ১৫ নভেম্বর ঃ মন্দিরের গ্রিলের তালা কেটে প্রণামী বাক্স সমেত প্রায় এক লক্ষ টাকা নিয়ে চম্পট দিল দুষ্কৃতীরা। এই ঘটনায় চাঞ্চল্য ছড়িয়েছে ময়নাগুড়ি ব্লকের দোমহানি লোকনাথ মন্দিরে। ঘটনার তদন্ত শুরু করেছে ময়নাগুড়ি থানার পুলিশ। ময়নাগুড়ি ব্লকের গুরুত্বপূর্ণ মন্দিরের অন্যতম দোমহানি লোকনাথ মন্দির। জানা গিয়েছে, কালীপূজার রাতে মন্দিরের গ্রিলে থাকা তালা কেটে প্রণামী বাক্সে থাকা প্রায় এক লক্ষ টাকা নিয়ে চম্পট দেয় দুষ্কৃতীরা। মন্দির পরিচালনা কমিটির সম্পাদক পার্থপ্রতিম দেব জানান, এদিন সকালে তাঁরা দেখতে পান মন্দিরের গ্রিলে থাকা তালাটি কাটা অবস্থায় রয়েছে এবং মন্দিরের ভেতরে থাকা প্রণামী বাক্স নেই। গত তিন বছর থেকে এই প্রণামী বাক্স খোলা হয়নি। মন্দির পরিচালনা কমিটির ধারণা এই প্রণামী বাক্সে কমপক্ষে এক লক্ষ টাকা ছিল। ঘটনার পর গোটা বিষয় জানিয়ে ময়নাগুড়ি থানায় অভিযোগ জানানো হয়েছে। ঘটনার তদন্ত শুরু করেছে ময়নাগুড়ি থানার পুলিশ।

SUITS & SAYINGS

ET's weekly roundup of the wackiest whispers and murmurs in corporate corridors & policy parlours

ILLUSTRATION: ANIRBAN BORA

Tempting Apple

The Centre has earmarked close to ₹20,000 crore in incentives for three of Apple's contract manufacturers looking to establish plants in India. Apart from this, state governments are planning to offer further sweeteners as the companies scout for locations, including free power, subsidised land and skilled manpower. They see getting an iPhone factory as a badge of honour that will draw others in its wake. Anything for a bite of the Apple.

Holiday Haven

If the RBI continues to be the usual stickler for rules, then some bankers may be lucky enough to bag short holidays in Mauritius or the Cayman Islands – at least, that's what they are hoping for. How? While Sebi has allowed the use of scanned documents to reopen and renew FPI registration, RBI rules still say that KYC for the bank accounts of the funds require verification of original documents by custodian banks. Since both tax havens are 'high-risk jurisdictions,' FPIs from there have to undergo the full KYC process every year. With the lockdown entering its ninth month, the registration of several funds is coming up for renewal. So, will RBI relax the rule? Bankers, for a change, wouldn't mind if the regulator remains dogmatic.

Swiss Randomness

Every few months, some Indian name crops up in the gazette notification issued by the Swiss Federal Tax Administration office. It serves as an alert: the Indian I-T department is fishing for information on anyone with an Alpine bank account. So, the person must quickly hire a lawyer before the data is mailed to India. For many wealthy Indians, it's a source of consternation and embarrassment. Some have made a daily habit of using Google translate to read the notifications, which are in German or French. The Swiss can be unpredictable: sometimes they simply give the name initials and date of birth – letting the person temporarily escape the media glare. But you never know when they will disclose the full name – as happened to a lady from Gujarat whose lawyers spotted her full name in a Swiss notification in end September.

Rule Bound

The DGCA typically hires pilots as flight operations inspectors for their hands-on knowledge. Candidates who appear for interviews need not necessarily be great on the theoretical aspects, until now. Candidates are, for instance, being asked to define airplanes as detailed in the Aircraft Act. The idea behind the change is to make pilots understand that as part of their new role at the DGCA they will have to work with and follow a lot of written rules.

Corporate Account

The urgency with which this top corporate banker has been calling up finance bosses for regular business has raised many an eyebrow, especially at this storied coffee-to-cars conglomerate. We learn even his just-retired boss had raised this issue with the concerned chairman, who was quite bemused. We wonder if these follow-ups are a part of a 'guru dakshina' for the doyen or an exercise to score brownie points ahead of board appointments that are up for grabs.

Home Truths

They have been best buds since their young days and the whole world knows they are inseparable in business and beyond. So, if one made a billion dollar skyscraper for his family residence, it's time for the other to build his own palatial address as well. A little bird tells us work has been on in upscale Malabar Hill even during the pandemic for another castle in the air with multi-level parking and all the gizmos money can buy. We don't know if this will also be a ten-figure endeavour but most certainly will end up being one of the plushest pads of Mumbai.

Attendance Monitor

Even as most organisations have been very accommodating with employees working from home, giving them the option to return to office whenever they feel comfortable, the recent diktat from a senior honcho at this European bank has stunned most. We hear the team is quite distraught as Mr Senior is forcing his team to be physically present in office at least once a week. A few juniors who had even gone back to their hometown are also paying from their pockets to take flights and attend office for a day. It's especially harsh given that the top boss himself has been overseas, away from the rising cases back home.

TA Associates to Acquire 60% Stake in OmniActive

Deal may value co at $250m, see exit of existing investor Everstone, a few HNIs

Reghu.Balakrishnan
@timesgroup.com

Mumbai: Global private equity investor TA Associates is all set to acquire a controlling stake in Mumbai-based nutraceutical ingredients company OmniActive Health Technologies.

The fund will invest about $150 million (₹1,118 crore) to acquire about 60% stake in the company, two people aware of the development said. ET first reported about the deal in February.

The acquisition, expected to value the company at $250 million, will see the exit of investor Everstone Capital and a handful of high net-worth individuals, Everstone holds a 35% stake in the company.

OmniActive promoter Sanjaya Mariwala's stake in the company will increase to about 40%, said one of the people.

OmniActive offers a range of ingredients in the dietary supplement, food and beverage space. Its core products include carotenoids, plant extracts and specialty functional ingredients.

Everstone invested $35 million in OmniActive in January 2017 and shortly after, OmniActive acquired a controlling stake in Bengaluru-based fragrance and specialty chemicals maker Indfrag.

Part of the Mumbai-based Kanji Morarji Group, OmniActive was founded by Mariwala, who had earlier set up Kancor Ingredients, a producer of natural food colours, ingredients, essential oils, spice oils and mints and menthols. The group also owned Vallabhdas Kanji. Seasoning.

In 2014, France-based flavours and fragrance firm V Mane Fils acquired Kancor. Swiss fragrance and flavour company Firmenich acquired VKL Seasoning from Indian private equity fund True North last year.

A TA Associates spokesperson declined to comment on the planned deal. Mails sent to Mariwala and Everstone did not elicit any response.

Established in 2004, OmniActive has two business units. The main vertical focuses on branded products for wellness & weight management like Lutemax, Capsimax and CurcuWin, while the Specialty Botanicals & Extracts business vertical is engaged in manufacturing of ingredients and botanical extracts. OmniActive supplies ingredients to end-users such as Amway and GNC.

OmniActive competes with domestic companies such as Arjuna Natural Extracts, Sami Labs and global players such as DSM & BASF in the nutraceutical ingredients space.

Broadband Definition Needs to be Redefined, Speeds Raised: BIF

PTI

New Delhi: Industry think tank BIF has said a revision of broadband definition and speeds in India are long overdue and that it should be reviewed and upgraded to 2 mbps from current 512 kbps which is "dismally low". The Broadband India Forum (BIF) has said communications technology has transformed radically over the past years and entirely new markets for data services have emerged across the nation. Numerous modern internet applications and use cases now require higher speeds than prescribed by the current definition, it said.

"It is our view that since the current definition of broadband captures neither the development of the technology nor the Indian consumers' appetite for high speed broadband services, it must be reviewed and redefined," the BIF said in its submission to Telecom Regulatory Authority of India (Trai).

The submissions form part of BIF's response to the regulator's consultation paper on 'road map to promote broadband connectivity and enhanced broadband speed'.

Trai had floated the discussion paper to seek stakeholder views on various issues including whether existing definition of broadband need to be reviewed along with threshold download and upload speeds; possibility of defining different categories of broadband depending on speeds; need for speed measurement programmes in the country amongst others.

When contacted, BIF president TV Ramachandran said that current definition of broadband in India at 512 kbps is dismally low, and the upgrade to 2 mbps for the same is long overdue, even as per the national policy mandates, apart from the global benchmarks.

Indian Drug Cos Recall Products in US market

PTI

New Delhi: Indian drug firms like Marksans Pharma, Aurobindo Pharma, Zydus and Jubilant are recalling products in the US market, as per the latest enforcement report by the US Food and Drug Administration (USFDA). While Marksans Pharma is recalling diabetes drug, Zydus Pharmaceuticals (US) is recalling a drug which is used to reduce stomach acid. Similarly, Aurobindo Pharma (US) is recalling pain relieving drug, while Jubilant Cadista is recalling a medication used to treat schizophrenia. As per the USFDA, Marksans Pharma is recalling close to six lakh bottles of diabetes drug Metformin Hydrochloride extended-release tablets in strengths of 500 mg and 750 mg in the US market.

The medication lot has been manufactured at the company's Goa-based manufacturing facility.

As per the USFDA, the company is recalling the product due to deviation from the current good manufacturing practices (CGMP).

"FDA analysis detected N-Nitrosodimethylamine (NDMA) impurity above the acceptable intake level," it noted.

Govt Brings Vehicle Trade, Repair Under MSME Development Act

Move to help auto dealers gain access to subsidies & cheaper loans gives to MSMEs

Sharmistha Mukherjee & Nehal Chaliawala

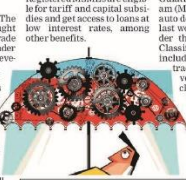
New Delhi | Mumbai: The government has brought wholesale and retail trade and repair of vehicles under the ambit of the MSME Development Act, a move that will allow automobile dealers to avail of benefits such as subsidies and cheaper loans accorded to micro, small and medium enterprises.

The ministry of micro, small and medium enterprises (MSME) approved the decision on Thursday, several people aware of the matter said. The official order will be issued shortly.

MSMEs comprising manufacturing and service units are required to get registered on the ministry's Udyam Portal to avail of the benefits and subsidies offered under various government schemes. Registered MSMEs are eligible for tariff and capital subsidies and get access to loans at low interest rates, among other benefits.

The Federation of Automobile Dealers' Association (FADA), a vehicle retailers' lobby group, has been urging the government to bring auto dealerships in the purview of the MSME Development Act for the past two years. FADA represents 15,000 automobile dealers across the country.

FADA president Vinkesh Gulati confirmed that 'Udyam (MSME) Registration' for auto dealers was enabled late last week. The trade falls under the National Industrial Classification code 45 which includes wholesale and retail trade and repair of motor vehicles and motorcycles.



"Since it (MSME) is a concurrent subject, automobile dealers would now be eligible for several benefits both from the Centre and the states," Gulati said.

Pollution Levels Higher in Delhi this Diwali: CPCB

PTI

New Delhi: Pollution levels were higher in Delhi this Diwali as compared to the last year and this could be attributed to high share of stubble burning and unfavourable meteorology during the festival season, according to the Central Pollution Control Board.

In a special report, the apex pollution watchdog said almost all pollutants reported higher values on Diwali day this year as compared to 2019.

"Diwali was in mid-November this year which has unfavourable meteorological conditions for dispersal of pollutants as compared to 2019 when it was in last week of October," it said.

The contribution of stubble burning in Delhi's PM2.5 concentration was 32% on Diwali day this year as compared to 19 % last year.

Green Energy can Step into Lead Role

ET's panel discussion sparks off a debate but panellists concur that new policies, reforms and regulations, along with hybrid tech, will help India adjust to renewable energy's transition to supplying most of the nation's electricity supply

The Economic Times brought together corporate leaders from the clean energy sector, a leading consultant and the head of the energy vertical at Niti Aayog to discuss the challenges and solutions in the major transformation underway in the energy sector – from the domination of the stable, reliable but polluting fossil fuels to the rapid expansion of wind and solar energy, which is clean and renewable but very intermittent. The panellists and the government official agreed that a new wave of policies, reforms and regulations, along with the use of hybrid technology will help India adjust to renewable energy's transition from being a small add-on in electricity supply to being its major and fastest-growing component. Edited excerpts.

Presents THE ECONOMIC TIMES POWER TALKS

Mr Ram, how prepared is India's power sector for the massive growth in renewable energy?
Rajnath Ram, advisor, energy, Niti Aayog: We have planned this transition in a very smooth manner. A CEA report says that renewable energy up to 17%, with the existing grid, there are no major issues in integration. If we move to the higher share of renewable energy, certainly you need balancing. We are looking for batteries storage, pump storage and other kind of storage solutions for balancing. And we are coming out with the advanced chemistry cell battery manufacturing policy that is under final stage.

Rajnath Ram
Adviser, energy, Niti Aayog

We cannot rely only on imported equipment for this huge target of 450 gigawatts of renewable energy by 2030

Vipul Tuli, Renewables will exceed that landmark of 17%. What policy initiatives are needed, and is hybrid technology the solution?
Vipul Tuli, managing director, Sembcorp Energy India Ltd: I think we are now at the stage where the next wave of rules, reforms and regulations are required to take us to, let's say, 20% and beyond. I think, as renewables move from being sort of just something that fills in the gaps here and there to being something very mainstream, the question of reliability and scale comes to the fore. Hybrid is certainly one of the very core solutions, but not the only solution.

Alok Nanda, Vipul said hybrids are not the only solution. Do you agree?
Alok Nanda, CEO, GE India Technology Centre: There are three basic aspects for any nation when it comes to energy: Energy security, environmental concerns and cost of electricity. As we transition to more penetration of renewables, hybrids is inevitable because of these factors. If we only have one source, which is intermittent in nature, like most of the renewables are, that's something which takes that capacity utilization factors really low. If you combine the sources of energy and you combine them with the help of technology, like one of the technologies that we have ... you utilise your energy sources more optimally. From that perspective, hybrids are inevitable.

Ashish Khanna, your company is very strong in coal, and getting stronger by the day in renewables. What are your thoughts on the inevitability of hybrids.
Ashish Khanna, president, renewables, Tata Power: More of renewables is now focused towards solar and more and more solar is now commoditised. Rather than the quality of power, the competitiveness of the tariff is something everyone is now focusing on. If you look six years back, in solar we are virtually 8-10x. Unprecedented in our infrastructure segment to have a growth of this nature. Wind has also been steady.

Is this growing on a standalone basis? Are we going to miss all the infrastructure on which we have already invested say, thermal fossil fuel infrastructure. Should we just forget about it?

Mr Ram, you should respond to policy issues raised by panellists.
Rajnath Ram: Mr Ashish Khanna said we are looking more towards the solar than wind. But kindly remember that before solar took off, wind was the highest one. There was some change in the policy regime moving from feed-in tariff to the competitive bidding, There were some issues which crop there, because the supply chain was getting much affected. So, that was the one reason but nevertheless, now the government is coming out with the streamlining the sector and we are coming out with the manufacturing policy also. The issues he has raised thermal, which are already in place, is an issue. The CEA has notified about 25 GW plants they should retire in due course of time.

ANIRBAN BORA

While hybrids seem inevitable, companies seem more excited about plain vanilla solar tenders. What is the reason, Vinay?
Vinay Rustagi, managing director, Bridge to India: Some recent solar tenders have been massively oversubscribed. The reasons are very simple. Land and transmission challenges for wind projects are much more acute than for solar projects. Solar technology is much more widely available and solar power is cheaper. Wind is a more complex. There are only about two or three proven suppliers in the country. So to get assured supply from them at the acceptable kind of cost levels is a major challenge. But I believe the days of plain solar are going to be much more limited. I think everybody is talking about hybrid technology, which is obviously needed to grow renewables.

Alok Nanda
CEO
GE Technology Centre

If you combine sources of energy with the help of tech... you utilise your energy sources more optimally

Vipul Tuli
MD, Sembcorp India

The question of reliability and scale comes to the fore as renewables will start to be looked at as a real baseload substitute

Vipul, how optimistic are you that, the sector will get reformed and renewables will evolve in the right way with necessary support?
Vipul Tuli: On a lighter note, you have to be optimistic if you want to operate in the power sector in India. But very often the good work gets ignored. I'll just give you examples. Our national grid, it is one of the most phenomenal global power assets that exists. If you look at the speed, scale and costs at which renewables have been developed, that's very noteworthy. And, from the discoms physical losses have fallen (significantly). So, overall, I would say I'm optimistic.

Alok, with the challenges that wind energy is facing, how do we combine various sources to give reliable power?
Alok Nanda: Solar is the least cost, gas is the highest efficiency, and coal has available infrastructure. If you take all these things together, you put in the technology of a good control engine backed by data based machine learning based algorithm based optimizer, there is nothing better than that. If you don't utilize all the sources of energy to their optimal, we don't make a smooth transition.
Vipul Tuli: You need the solar because it's cheap and plentiful; wind because it's the only scalable, renewable that's there at the peak when we really need the power. You need the conventional, that's absolutely necessary, because there is no viable storage technology at that scale yet, and you need it for reliability.

There's lakhs of crores of investment in those and as their PLF goes lower and lower as solar and wind eats into those, you have to have some solution to transition those out. Because otherwise they'll simply shut down and they're not available for support.
Ashish Khanna: Let us put across two facts on the table. Let's appreciate that on 9th April, when we had 9 minutes of shutdown, the country did phenomenally well. So it's not that the country is not in a position to take the load's ups and downs, which is unprecedented. I would like to add that when you actually take the load cover of cities and the generation of solar and wind, and we have done that exercise ourselves for many cities here, they complement each other. That's where the natural hybrid comes. The fact remains that in the gaps that come in, how would you fill that gap in? And what is the most cost-optimum solution for that gap? You can fill it through that storage, or you can fill it through some other power that can quickly ramp up or ramp down. Gas is not a solution for us, which is available in many other parts of the world.

Ashish Khanna
president, renewables, Tata Power

Rather than the quality of power, the competitiveness of the tariff is something everyone is now focusing on

Vinay Rustagi
MD, Bridge to India

Until and unless players have access to homegrown tech, you can't have the objective of Aatmanirbhar fully met

Companies have conflicting views on this because India has a shortage. Vinay, as a consultant, you would have an independent view.
Vinay Rustugi: The government should specify that this is the amount of power needed during these hours for this much time etc, and you can provide it from whatever sources, provided of course there is compliance with RPO at the consumer end, and carbon emission generation at the supply end.

Rajnath Ram, would this suggestion be acceptable to the government?
Rajnath Ram: Some of the suggestions are excellent, combining the different options for providing firm power. Vipul has mentioned that wind can be a better solution with solar, thermal can be a better solution. Basically, we have to look at all the aspects. Wind is also very site specific, it is not available across the country.

We have to look at thermal, we have to look somewhere for pump hydro to be available. Somewhere, where the other sources are not available, the other options can be explored. Battery could be one of the solutions.

Let me put forward one major question here. We are picking up 450 GW by 2030, but our manufacturing base is very limited. We have about 2 GW of solar cell manufacturing, and some more capacity for panels. We cannot only rely on imported equipment for this huge target.

We are working with Ministry of New and Renewable Energy (MNRE) for a solar cell manufacturing policy for cutting-edge technology. In wind sector, after having the tariff-based bidding process, a lot of industries had finished. We need to really work on that area.

Ram, you mentioned a policy for storage. How adaptable and flexible would be policy be?
Rajnath Ram: There can't be a one-fit solution for all. We have to really explore the multiple kinds of storage solutions, depending on the evolution of the industry. We engaged World Bank to assess the demand for the country. Some of the states are evaluating, and the report might be coming out by end of November, or early December.

GDP FORECAST FOR FY21

Moody's Upgrades, Barclays Downgrades

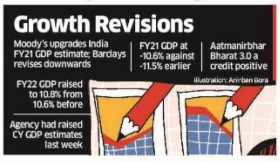

Illustration: Anirban Bora

Our Bureau

New Delhi: Moody's Investors Service said India's GDP will contract 10.6% in FY21, less than the 11.5% it had projected in September. The government's latest fiscal stimulus package, aimed at manufacturing, infrastructure, job creation, credit supply and stressed sectors of the economy, provided a potential upside to the estimated growth, Moody's said.

However, Barclays projected a slightly deeper contraction of 6.4% for FY21 against 6% before to reflect incoming data that's marginally weaker than expected.

"The latest measures aim to increase the competitiveness of India's manufacturing sector and create jobs, while supporting infrastructure investment, credit availability and stressed sectors. As such, they present potential upside to our current growth forecasts, a credit positive," Moody's said.

The rating company revised upwards its forecast for growth in the next financial year to 10.8% from 10.6% earlier, adding that medium-term growth would settle at about 6%.

Barclays upgraded its forecast for FY22 to 8.5% from 7% earlier as India's recovery was broadening into more sectors, apart from gaining traction, it said in a report on Thursday. It also revised its projection for the second quarter contraction to 8.5% from 8% earlier.

Moody's had earlier raised India growth projections for calendar year 2020 and 2021. Earlier this week, investment bank Goldman Sachs scaled down its FY21 GDP forecast for India to a contraction of 10.3% from 14.8% estimated in September. More private economists are expected to revise their estimates soon.

High-frequency data over the past two months indicate that a recovery is gaining pace. Industrial production grew 0.2% in September, reversing six months of contraction.

The Purchasing Managers' Index for services and manufacturing rose to the highest in eight-and-a-half years in September.

Solar Gear Production to Build 35k MW Capacity

Power minister says govt has EoIs for large-scale ingot, wafer manufacturing

Shashwat.Mohanty@timesgroup.com

New Delhi: The government has received expressions of interest to set up manufacturing capacity of nearly 35,000 MW of solar equipment, power and renewable energy minister RK Singh said on Thursday.

If the bids materialise, they would result in the first large-scale plan to set up the manufacturing of ingots and wafers in the country. As per industry estimates, India currently has a manufacturing capacity of 3,000 MW for cells and 10,000 MW for modules. "We have expressions of interest for setting up manufacturing capacity for 20,000 MW of solar modules, 15,000 MW of solar cells, and a similar quantity of ingots, wafers, etc," Singh said.

He also said talks were ongoing with the finance ministry to implement the basic customs duty on foreign solar imports. "I have reminded the finance minister that we are waiting for the customs duty to come. They (domestic industry) are all waiting for the customs duty," the minister added.

Domestic manufacturers have been anticipating duty on solar equipment since finance minister Nirmala Sitharaman included it in her budget proposal earlier this year. RK Singh had told reporters in June that such a basics custom duty was supposed to be imposed from August 1 to prevent the dumping of Chinese goods and protect national interests, where 80% of solar equipment is sourced from.

Talks are ongoing with the finance ministry to implement the basic customs duty on foreign solar imports, says RK Singh

However, due to disagreements over the "grandfathering" clause, which would provide exemptions to power purchase agreements already signed, the implementation remained delayed.

Adding a "grandfather clause" to existing power purchase agreements would mean that there is an understanding between solar developers and the government that the project costs more than the allocated budget at the time of closing of the deal, and hence, compensation will be provided to the developers via the distribution companies.

Instead, a formula based on the coal cess will be implemented to recover the losses incurred due to the safeguard and basic customs duties, Singh said. Although this is expected to provide relief to the generators, consumers might bear the immediate brunt of such a policy.

MCA Approves Cessation of HV Lodha from Board of MP Birla's Investment Cos

Anuradha Himatsingka & Maulik Vyas

Kolkata | Mumbai: The corporate affairs ministry has approved the cessation of Harsh Vardhan Lodha's directorship at five MP Birla Group investment companies, based on the decision of their boards headed by a court-appointed former judge. Lodha has called the decision illegal and approached the Calcutta High Court challenging it.

The ministry's approval on Wednesday to the boards' decision is a major blow to Lodha.

The high court had earlier restrained him from holding any position at MP Birla Group companies and told him not to draw any benefit from the assets of the MP Birla estate. The order, which was given by a single-judge bench, was upheld by a division bench last month.

The Lodhas had taken control of the MP Birla Group under a will that came to light after the death of MP Birla's widow, Priyamvada. The Birla family had challenged the genuineness of the will and the case has been pending in the high court for several years.

The court had appointed an Administrator Pendente Lite (APL) Committee to monitor the group's affairs. Lodha has been a director of the five companies — East India Investment, Gwalior Webbing, Baroda Agents & Trading Co, Punjab Produce & Trading Co and Punjab Produce Holdings — since 2004.

"Lodha has continuously misinterpreted court orders and flouted the APL committee decisions to cling on to the boards of MP Birla Group companies wrongfully. We will move the court to restrain him from further action in contravention to the decisions of the Court as well as the APL Committee," said a spokesperson for the Birlas.

Fox & Mandal partner Debanjan Mandal, who represents Lodha, said: "All the actions taken by Shah in the past one-and-a-half months were completely illegitimate exploitations of the verdict of Justice Munshi which is under challenge. These actions were taken in gross disregard of modifications made by Chief Justice TB Nair Radhakrishnan and Justice Shampa Sarkar."

The statement from the Lodha faction said Justice Shah, as the chairman of the investment companies, decided on his own that Lodha had ceased to be a director of these companies and did not send notices to him for board meetings held since October 1.

લોંચ પેડ પર ૩૦૦ ત્રાસવાદી ઘુસણખોરી કરવાના પ્રયાસમાં

શ્રીનગર, ૧૩ નવેમ્બરના રોજ, પાકિસ્તાનના બીએસએફના આઈજી રાજેશ મિશ્રાએ રવિવારે કહ્યું હતું કે પાકિસ્તાન દ્વારા એલઓસી પર યુદ્ધવિરામના ભંગ અને મોટી માત્રામાં દારૂગોળોનો ઉપયોગ કરવાના મામલામાં ભારતથી ઘુસણખોરી કરવા સીમા પર ૨૫૦ થી ૩૦૦ આતંકવાદીઓ છે. અમે લોન્ચિંગ પેડ પર છીએ પરંતુ અમારી સેના અને બોર્ડર સિક્યુરિટી ફોર્સ (બીએસએફ) બધા તૈયાર છે. તેમણે વધુમાં કહ્યું કે કોઈ પણ કારણ વિના પાકિસ્તાને ફાયરિંગ કરી અને મોટી બંદૂકોનો ઉપયોગ કર્યો.

આઈજી રાજેશ મિશ્રાએ કહ્યું કે આર્મી અને બીએસએફના જવાનોએ બહાદુરીથી લડ્યા. અમારા સૈનિકો અને નાગરિકોની જાનહાની થઈ છે. નાગરિક સંપત્તિને નુકસાન થયું હતું. અમે પણ આકરો જવાબ આપ્યો. અમે તેમના ઘણા બંકરનો નાશ કર્યો છે. આમાં માનવાધિકારના ઉલ્લંઘનનો મુદ્દો ઉઠાવવો જોઈએ. પાકિસ્તાને સામાન્ય નાગરિકોને નિશાન બનાવ્યા છે.

તમને જણાવી દઈએ કે આઈજી રાજેશ મિશ્રા રવિવારે બીએસએફના શહીદ સબ ઈન્સપેક્ટર રાકેશ ડોવાલને શ્રદ્ધાંજલિ આપવા શ્રીનગર પહોંચ્યા હતા. જમ્મુ-કાશ્મીરના નૌગામ સેક્ટરમાં પાકિસ્તાન દ્વારા કરવામાં આવેલા યુદ્ધવિરામના ભંગમાં સબ ઈન્સ્પેક્ટર રાકેશ ડોવલ શહીદ થયા હતા.

વિદેશ મંત્રાલયના પોતાના નિવેદનમાં, પાકિસ્તાન તરફથી શાંતિ તોડવા અને તહેવારો સમયે નિયંત્રણ રેખા પર ફાયરિંગ કરીને હિંસા ભડકાવવાનું નિંદાત્મક છે. વિદેશ મંત્રાલયના જણાવ્યા મુજબ પાકિસ્તાનના આ ભયંકર કૃત્યમાં ૫ સુરક્ષા કર્મીઓ માર્યા ગયા છે, જ્યારે ૪ નાગરિકો પણ મૃત્યુ પામ્યા છે. તે જ સમયે ૧૯ લોકો ઘાયલ થયા હતા. ભારતના જવાબી કાર્યવાહીમાં પાકિસ્તાનના ૮ સૈનિકો મૃત્યુ પામ્યા છે. પાકિસ્તાન તરફથી ઉશ્કેરણીજનક ફાયરિંગ પર વિદેશ મંત્રાલયે પાકિસ્તાન હાઈ કમિશનના એક વરિષ્ઠ અધિકારીને બોલાવીને સખત વાંધો નોંધાવ્યો હતો. પાકિસ્તાને ઉચ્ચ કમિશનના ચાર્જ ડી અફેર્સને બોલાવીને ભારતે પણ આકરા વાંધા વ્યક્ત કર્યા હતા.
